Spring Sing Presents:
STONE SOUP!

LOVE * LEARN * SERVE

The last few weeks I have been humbly reminded of our recent addition to Our Savior's Lutheran School motto: LOVE-LEARN-SERVE. From the bottom of my heart I adore this mantra! How powerful and inspiring our world would be if we would strive to love more, learn more, and serve more! In Martin Luther's theory of knowledge, Luther states "Learning is a natural activity...three ways for effective learning: Natural endowment, instruction, and practice". To have the opportunity to learn to love and learn to serve is what makes Our Savior's the exceptional program that it is! To have a child know that they make a true difference in the lives of our community and our peers is a character trait that is irreplaceable!

To truly adhere to the understanding that we are created to love others and to love thy neighbor is what makes our world the spectacular place that God intended it to be! Our prayer for you for this month-may you find a way to foster love, yearn to learn more, and continually strive to serve others!

We look forward to sharing in detail with you about our exceptional program during Open House which is scheduled on May 14th at 6pm! We hope to see you all there and don't forget to mark your calendars for at our Spring Sing on May 28th and 29th!

Take care always,

Katherine Yeakel,
OSLS Preschool Director

Verse of the month:
2 Corinthians 5:17

"So if anyone is in Christ, there is a new creation: Everything old has passed away; see, everything has become new!"

Chapel Offering for April will be
given to: *Lutheran World Relief*

Trait of the Month:
Citizenship

A NOTE FROM YOUR TEACHERS!

Mrs. Hardison

During the month of May, we continue to explore life cycles. Last month we learned about how caterpillars change into butterflies, and how tadpoles turn into frogs! These miraculous changes always intrigue and delight preschoolers. This unit extends what we have learned about life cycles as we discover how plants grow, the parts of a plant, and the different things that plants produce. Here's to a great month ahead!

MISS RYSAVY

This month we will be exploring the ocean and everything that is under the sea. We will be taking a close look at the letters W, X and Y this month. This month we will also be focusing on the diamond shape, number zero and the color yellow. This month is also a very important month to celebrate our moms! This year, we will celebrate our moms with "Muffins with Mom." We are so excited to have all of our fantastic moms join us! Can't wait to see you all at Open House on the 14th! Great way to showcase our year-see you there!

Mrs. Wells

This month our theme is "Animal Fun". In this unit the children will explore different types of animals. They will learn about land, air, and water animals. Ask your child: If you could be an animal, which one would you be?

Alphabet Knowledge: Exploring Vv, Ww, Xx, Yy
